

## Additional EAL Program Benefits:

*Herd Savvy*, is respecting the value, strength and significance we each bring to the effectiveness of the herd. If we learn how to put aside "the manure" that blocks our individual development, we can become more effective while working as a team.

- Participants will:
- become efficient communicators;
  - effective communicative listeners;
  - develop healthy relationships;
  - learn problem solving skills;
  - find success over obstacles;
  - learn to appreciate each other;
  - build confidence & self esteem;
  - overcome fear & develop confidence;
  - develop personal work ethics, responsibility & appropriate assertiveness;
  - observe the nature of the horse and realize it's importance to social success;
  - learn the value of work and having fun;
  - understand the importance of having distinct personalities, attitudes & moods;
  - engage in discussion & activity to learn more about the horse & themselves;
  - develop abilities to be smart risk takers and fair minded team players;
  - learn to create a win/win environment;
  - improve group decision making and problem solving skills; along with other personal development & leadership skills.

**If** you had the opportunity to embed the values of mutual trust and respect in the hearts of every youth

— would you ask **who?**

**If** you had the answers to empowering a community while building confidence in future generations

— would you ask **what?**

**If** you had the ability to enable individuals with strong, communicative skills taught through the spirit of the horse

— would you ask **when?**

**If** you could provide youth with alternative skills to draw from when faced with negative influences

— would you ask **where?**

**If** you could build strength in the school, pride in the community and confidence in every heart

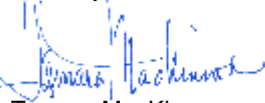

— would you ask **how?**

## We Welcome

this opportunity to introduce you to the Cartier Equine Learning Center, a certified EAL course that teaches you how to facilitate personal development skills, while 'using horse sense'. Cartier Equine Learning Center Equine-Assisted Learning program is a powerful journey of learning and understanding for not only the individual participating but an entire community. Proactive by design, EAL experiential learning has proven to work for every challenge, age and skill level.

I look forward to discussing how you can bring this proactive approach back to your community and find success.

Cordially,

  
Tamara MacKinnon  
Program Director
